

Life. Changing. Internet

Midco Gig Internet at Home

The Internet of Things is here! The average home already has seven internet-connected devices for every person – and with more devices in your home, it's a great time to increase your streaming capacity with Midco Gig. It's easy to see: **we're going to need much better internet.**

Do you need a Gig?

The more people and devices you have online, the more likely you are to need Midco Gig right now – because it brings so much more capacity, or “bandwidth” into your house. Say goodbye to slowdowns and lag while streaming or gaming. Plus, you’ll have plenty of room for additional technology later.

Call **1.800.888.1300** or visit **MidcoGig.com**.
